

GUTTER RENOVATION SOLUTION

Waterproof renewal coating for gutters

IKOpro Gutter Renovation

Gutter renovation solution is a solvent-free, odourless, ready to use coating made from flexible hybrid polymers.

It is a self-levelling renewal coating for the permanent repair and protection of gutters made from all commonly used materials.

When cured it forms a waterproof, maintenance-free, elastic and seamless coating.

It protects your gutters from corrosion, acid rain, UV rays and other aggressive environmental influences.

Resistant to all temperatures

Highly elastic and covers cracks

Adheres to all commonly used materials

Environmentally friendly and safe to use

Application

For use on gutters made from all commonly used materials.

How do I prepare the surface?

First dry and remove all dust and grease from the substrate.

Roughen the surface to be treated with a steel brush and degrease it with a solution of water and ammonia or a synthetic degreaser. Note: only treat new metal after 6 months.

Cover visible holes with masking tape to prevent seepage.

How do I use the product?

Pour onto the prepared substrate and immediately spread it lightly with a brush.

Use 0.5 l/m² (coat thickness = ± 0.5 mm).

One coat is sufficient.

In extreme cases, a second coat can be applied after 24 hours.

Reinforce larger cracks with the IKO polyester fleece 30 between coats.

Rainproof after 6 hours.

Handy tips

- ✓ Store in a cool (max. 25°C) and frost-free place.
- ✗ Do not apply if the ambient or substrate temperature is below +5°C.
- ✓ Shelf life: at least 12 months in unopened container.
- ✗ Opened containers have a limited shelf life.
- ✓ Stir well before use and close container carefully after use.
